The Idea

- To create a one-stop news application
- Simple and intuitive to use
- Provide a well-rounded view of current events
- Aggregate articles from multiple top news sources

Current Progress (MVP)

- Displays articles from top news sources (currently 8)
- Ability to select from a specific source or display articles at random
- Ability to display articles from current day or recent articles (current week)
- Admin page to update articles

DEMO

Short-Term Goals (Initial Release)

- Improved relational algorithm for more accurate topic matching
- Improved site layout with more intuitive UI
- Lock Admin page behind login screen for security purposes

Long-Term Goals (Post-Release / Stretch Goals)

- User login/accounts to save news display preferences
- Allow commenting on articles / events
- Add even more news sources to select from
- More filtering options (Trending, Most Viewed, Most Commented)
- Automatic updating of articles

Thank you!

We'd be happy to answer any questions.
